

# 12V Air Compressor

*An instant tyre inflator –  
the perfect complement for drivers  
to enjoy the benefits of optimum tyre pressure.*

## For your information:

- Inflates from 0 to 43 Psi in less than 5 minutes.
- Suitable for all Sedans, 4x4s, SUVs, and MPVs.

## **Optimum Tyre Pressure at All Times**

Even as our TPMS offers round-the-clock tyre pressure monitoring, our high performance 12V Air Compressor is designed to inflate under-inflated tyres any time and anywhere, allowing the driver to enjoy a safer journey with the benefits of optimum tyre pressure.

The compact compressor is equipped with a pressure gauge for exact pressure requirements and also a deflate button if the tire is over-inflated.

Every car should always have a DK Auto 12V Air-Compressor.

**Features:**

- Operates on 12V power sources, i.e. car cigarette lighter.
- Pressure Gauge for exact pressure requirements.
- Single On/ Off switch to inflate under-inflated tyres.
- Single Deflate button to deflate over-inflated tyres.
- Able to inflate all 4 tyres continuously.
- Comes standard with a neat nylon carrying case.
- Equipped with 3 different types of nozzles for diverse applications, e.g. air mattresses, balls, bicycles and etc.

**Advantages:**

- Saves costs.
- Easy to operate.
- Compact size and light weight for easy storage.
- Best used with DK Auto's TPMS.

**Technical Specifications:**

Technical Description	Specification
Weight	1.6kg
Size	6.5cm (H) x 16cm (W) x 15.5cm (L)
Supply Voltage	DC12 from car cigarette lighter socket
Maximum Current	15A
Maximum Pressure	7bar / 100psi
Operating Temperature	-30°C to +70°C
Performance	0 to 30Psi ± 3 minutes
