

Automotive Carpet Mat

Combining Luxury and Function for the ultimate driving comfort!

How many times have your feet or pedals been caught in your car carpet mat?

No curls are a good thing when it comes to your vehicle's carpeting. Our Carpet mats are manufactured under ISO/TS 16949 and ISO 9001 environments and they DO NOT CURL no matter the conditions!

Made from the highest OEM grade of carpet materials and rubber compounds, our automotive carpet mats undergo several abrasion tests and are UV treated for high tear resistance and to prevent colour fading. It combines design, luxury and comfort for a safe drive.

DK Auto Automotive Carpet Mat
