

# Alloy Wheels

*High performance Alloy Wheels are a great way to provide a stylish, sporty touch to any car.*

Chrome

Hyper Black

Full Polish

Lip Polish

## **Style + Strength + Performance**

DK Auto alloy wheels are manufactured by established world leading wheel makers under strict quality control environments to meet Japan VIA, JIL and Germany TUV standards, a combination of style, performance and optimized strength and durability.

DK Auto offer wheel sizes from 13" to 24", offset (ET) from -13mm to +60mm and a PCD range of 98mm to 160mm, using the latest casing technology and equipment.

From conventional Full Silver to the stylish new finishing of Hyper Silver, Hyper Black, Hyper Flash, Full Polish, Lip Polish and Chrome, we are confident that we have the right wheels to suit your requirements.
